

ELECTRUM

High yield potential
with malting quality

- MBC Approved for Brewing

Outstanding yield

- Highest yielding winter malting barley on the AHDB Recommended List with Full MBC Approval for Brewing

Excellent agronomics

- Very early maturity
- Good resistance to lodging

Fantastic grain quality

- Impressive specific weight

 **Electrum**
Winter barley

ELECTRUM

SY208-56 x SY208-59

ELECTRUM at a glance

- The highest yielding winter malting barley with Full MBC Approval for Brewing
- Strong disease profile with fantastic grain quality
- The earliest maturing winter malting barley on the AHDB Recommended List

Yields (% treated control)			
UK	E	W	N
96	96	96	96

Grain Quality	
Hot Water Extract	306.9 (l / deg/kg)
Specific Weight	69.7 kg/hl
% Screenings	2.25 mm - 2.4 2.5 mm - 6.8

Agronomics	
Height no PGR (cm)	102
Height with PGR (cm)	92
Resistance to lodging (+PGR) (1-9)	7
Ripening (Days +/- KWS Orwell)	-1

“**ELECTRUM** is the highest yielding winter malting barley variety with full MBC approval for brewing. It offers a good disease profile, excellent grain quality and high Hot Water Extract which is desired by the brewing industry. However, it’s the very early maturity of **ELECTRUM** that really sets it apart from other winter malting options. With a ripening date as early as any variety on the AHDB Winter Barley Recommended List, it can help to secure grain quality at harvest which is a real tangible benefit for malting growers in difficult seasons.”
