

# KWS SISKIN

Winter Wheat

KWS Sterling x CPBT W134

SEEDING  
THE FUTURE  
SINCE 1856

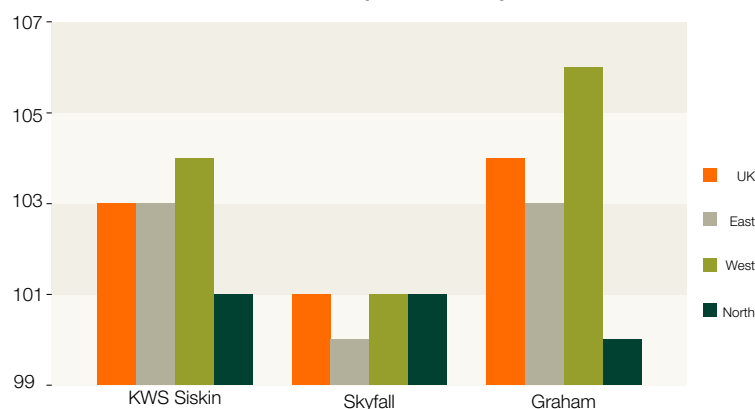

## There's no wheat that's more dynamic!

- Group 2, rated positive for **ukp**
- Excellent disease resistance
- Very high untreated yield
- Superb physical grain quality

KWS Siskin is the highest yielding breadmaker on the Recommended List. Selling out in its first year, it is the archetypal Dynamic Wheat. Combining high yields, exceptional hagberg, strong protein (11.5) and its positive **ukp** status - KWS Siskin opens up multiple end markets for farmers, unlocking premiums for their shed load of grain.

In addition it is consistent across soil types and performs well as both a first and second wheat. KWS Siskin has the best *Septoria tritici* score of 6.8 on the list and twin 9s for mildew and yellow rust, thus highlighting the disease profile farmers can expect from KWS Dynamic Wheats.

UK Yield (% Controls)

	KWS Siskin	Skyfall	Graham
<b>Yield (%)</b>			
UK	103	101	104
East	103	100	103
West	104	101	106
North	101	101	100
