

# KWS BASSET

Winter Wheat  
Cassius x Scout

SEEDING  
THE FUTURE  
SINCE 1856

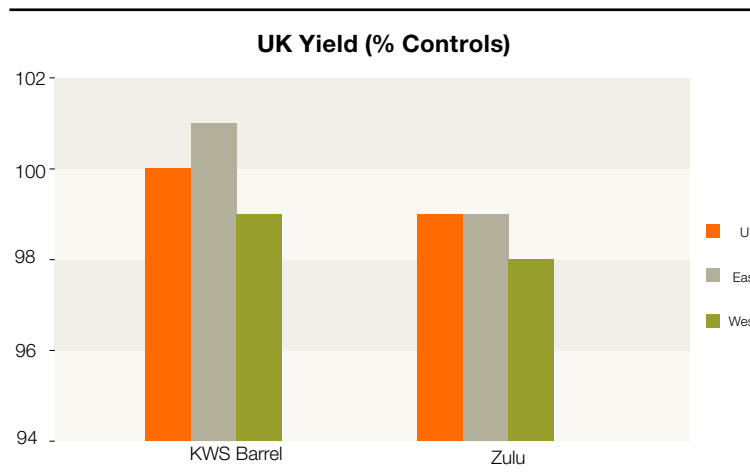

## Have you heard how good it is?

- Excellent end use potential
- Positive for **uks**
- Good physical grain quality
- Short and stiff straw
- Good all-round disease resistance

KWS Basset ideally suits farmers in the South. An easy to grow variety with 2% higher yields in the East than Zulu, its robust agronomic package will appeal to those growing for traditional biscuit markets. With a positive rating for **uks**, KWS Basset opens up a wide range of market opportunities.

KWS Basset is a Scout cross and offers the same all-round disease resistance as its parent, as well as OWBM resistance. KWS Basset performs well early sown and is a good choice as a second wheat.

	KWS Basset	Zulu
<b>Yield (%)</b>		
UK	100	99
East	101	99
West	99	98
<b>Disease</b>		
Mildew	5	7
