

KWS KERRIN

Winter Wheat

KWS W177 x KWS Santiago

SEEDING
THE FUTURE
SINCE 1856

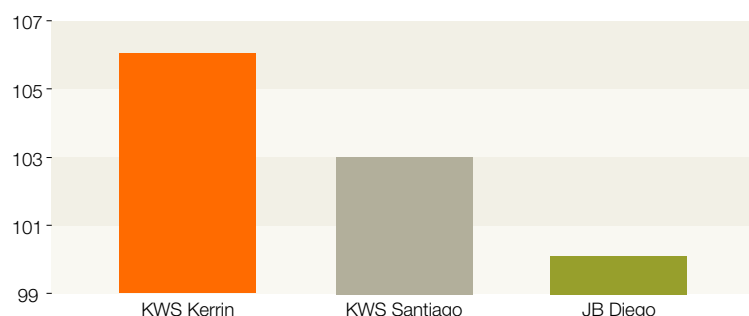

Sky high feed wheat yields!

- Highest yielding variety on the RL
- Particularly high yields in the North ([110]) and East (106)
- Group 4 hard feed wheat
- Strong disease resistance, including OWBM
- Good grain quality with stiff straw

KWS Kerrin is the highest yielding variety that KWS has ever produced and is currently the highest yielding winter wheat on the Recommended List. It performs exceptionally well in the East; the wheat heartland of the UK. KWS Kerrin is also well suited to the North.

It out yields its parent KWS Santiago and has improved disease resistance, including *Septoria* and yellow rust. Additionally, it has a superior specific weight at 75.7 kg/hl with a similar plant type and growth habit to KWS Santiago. Early indications support our own data, suggesting KWS Kerrin has good resistance to sprouting.

UK Yield (% Controls)

	KWS Kerrin	KWS Santiago	JB Diego
Yield (%)			
UK treated	106	103	100
UK untreated	84	69	77
Disease			
Mildew	7	5	6
Yellow rust	7	6	5
Brown rust	7	5	6
<i>S.tritici</i>	5.2	4.3	5.2
Eyespot	[5]	4	5
OWBM	R	R	-
Agronomy & Quality			
Lodging (+)	7	7	8
Lodging (-)	7	7	7
Height (cm)	84	86	88
Ripening	+1	+1	0
Sp.Wt (kg/hl)	75.7	75.1	77.4
