

EXCELLENT DISEASE RESISTANCE.

Grow to expect the best

RGT STOKES

G4 WINTER WHEAT

TYPE:

GROUP 4

SPECIES:

WINTER WHEAT

END MARKET:

**DISTILLING
AND FEED**

CHARACTERISTICS:

- > Distilling potential.
- > 7.5 for *S. tritici*.
- > Excellent overall disease resistance.
- > Suitable for early drilling.
- > Good second wheat.

Another RAGT newcomer with very strong Septoria resistance, Stokes is a potential distilling variety as well as a good feed choice. It is suitable for early drilling and is a good second wheat.

Source: AHDB Winter Wheat Trials Candidate Varieties. Notes [] - limited data. [[]] - very limited data. * YR rating scale has been reset, reducing the rating for some varieties. This does not necessarily mean that these varieties have become more susceptible since last year. @ - Believed to carry the Pch1 gene for eyespot resistance.
