

BEATRIX CL

Clearfield® Hybrid Oilseed Rape

Status: AHDB Candidate List Trials 2022/23

DSV are delighted to add BEATRIX CL to their portfolio of Clearfield® winter oilseed rape varieties. It is one of the first Quad Layered PNN varieties to offer a complementary package of traits, with no compromise on quality. BEATRIX CL has four major traits which include RLM7+ stem canker resistance, TuYV Protection, Pod Shatter Resistance and Clearfield® Technology.

BEATRIX CL offers a significant advance in the market place to be one of only a few to offer TuYV in the Clearfield® segment. This powerful yield enhancing trait possessed by all highest yielding recommended varieties, is an essential feature in the post neonic era of growing oilseed rape.

One of our higher yielding varieties BEATRIX CL boasts 97.4% Seed Yield and 98.7% Gross Output as well as having a good Oil Content (45.2%), coupled with a robust Resistance to Lodging (9) and Stem Stiffness (8.2). BEATRIX CL is early to flower (5.1) and to mature (6) – these are all essential traits that any grower should consider when selecting a variety to produce on farm.

With the addition of Pod Shatter Resistance as well as RLM7+ resistance to stem canker it delivers one of the best agronomic packages to date.

Gross Output	95.5% (UK) 98.7% (E/W) 89.4% (N)
Seed Yield	94.4% (UK) 97.4% (E/W) 88.5% (N)
Oil Content	45.2%
Winter Hardiness	High
Autumn Vigour	High
Spring Vigour	High
Plant Height	132cm
Flowering	5
Maturity	6
Lodging	9
Stem Stiffness	8
Light Leaf Spot	5
Stem Canker	8
