

Tundra

Highest yielding winter bean on the PGRO RL 2019

Tundra is an impressive market leading winter bean variety. It is pale skinned with a pale hilum colour, suitable for both the human consumption and feed markets.

Tundra has consistently shown very high yield potential; 8% above that of Wizard.

Strengths

- Highest yielding winter bean on the PGRO Recommended List
- Pale skin, pale hilum
- Good standing ability
- Moderately short strawed
- Earlier maturity

Technical Information

Tundra has very good agronomic attributes; very similar in many ways to Wizard.

Tundra is a moderately short straw variety, with good standing ability and an earlier maturity. It has very good protein content, suitable to the premium export markets for human consumption. Tundra, as all current RL winter beans, is colour flowered and has a high tannin type.

	TUNDRA	Bumble	Vespa	Wizard	Honey
Yield (as % Control)	104	102	103	96	94

	TUNDRA	Bumble	Vespa	Wizard	Honey
Earliness of Ripening	8	6	7	8	9
Shortness of Straw	8	6	7	8	9
Standing Ability at Harvest	7	6	8	8	9
Thousand Seed Weight (g)n (@15%mc)	691	735	702	715	730
Protein Content (%dry)	26.5	25.8	26.1	26.9	26.5
