

ELECTRUM

High yield potential
with malting quality

Phenomenal yield

- Highest yielding winter malting barley on the AHDB Recommended List
- Exceptional yield in the West

Excellent agronomics

- The first of all the winter barleys to mature
- Good resistance to lodging

Fantastic grain quality

- Impressive specific weight
- The lowest screenings through 2.5mm

Winter barley

syngenta®

Electrum

SY208-56 x SY208-59

Very High Yields

UK	E	W	N
97	98	97	95

Early Maturity -1

Grain Quality

High Hot Water Extract: 305.7

Specific Weight: 69.5 kg/hl

% Screenings
2.25 mm - 2.4
2.5 mm - 6.6

Recommended Seed Rate:

September:
275-300 seeds/m²

October:
300-350 seeds/m²

November:
350+ seeds/m²

ELECTRUM AT A GLANCE

- The highest yielding winter malting barley
- Strong disease profile
- Recommended in all regions
- Short, stiff straw
- The earliest maturing winter malting barley
- Provisional MBC approval for brewing
- High specific weight with low screenings

Robust Disease & Agronomics

Height no PGR (cm): 93

Height with PGR (cm): 90

Resistance to lodging (1-9): 7

MILDEW 6

NET BLOTCH 5

RHYNCHOSPORIUM 6

BROWN RUST 6

RAMULARIA 5

BaYMV R

Nitrogen Advice:

A standard nitrogen input programme for a malting variety should be applied, typically around 100-120 kg N/ha
